BENEFIT OF

MISS MINNIE NORDT,

The Great Henry Irving Success

"THE TWO ROSES."

Box Plan at Messrs. KELLY & WALSH,

where Seats may be secured.

J. CHAS. DAVIS,

The case in which Sergeant Butlin and Mr. Oberhew, Inspector of Nuisances, are charged with having caused the death of three Chinese gamblers, was again before the Police Court this morning. Mr. A. G. Wise, the Junior Police Magistrate, before whom the case came, discharged Mr. Oberhew, and remitted the case against Sergeant Butlin to be tried at the February Criminal Sessions. Butlin was allowed to Sergeant Butlin in a personal security of 500.

We understand that quite a large number of Chinese boys from the Government Central School have placed their services at the disposal of Mr. Cheung, the agent of the China Merchants' S. S. Navigation Company here, who has been deputed by Li Hung-chang to select at least twelve lads who are to be trained for commanders of men-of-war at Tientsin. They will be trained in navigation and seamanship at the naval academy there, and during their course will receive 10 taels and food, and will be eligible for posts rising to the value of two hundred taels. Many of the boys of the Central School are in posts of trust in the Chinese service, and one is captain of a gunboat cruising off Hainan.

PLAY IN THE CRICKET MATCH BETWEEN THE Foochow team and a team of the other members of the Club finished at gun-fire to-day; the result being a draw, much in favor of the Stay-at-homes. The match would, in all probability, have resulted in a win had time allowed. The Foochow 11 scored 95 in their first innings and 100 for 8 wickets in their second innings, whilst the club men made 285 in their one innings. Some of the "Foochow" eleven were very slack in appearing and the fielding and bowling showed room for improvement. Scores played remarkably well for his 44 in the 2nd innings, but he must try and put a little life in his fielding.

LAST night, a highly enjoyable concert was given in aid of the funds of the Temperance Hall by a number of ladies and gentlemen, amateurs. Owing to a variety of circumstances, there was a very meagre attendance of the public, and the proceeds of the entertainment will do very little, indeed, towards liquidating the large debt of \$1,500 which the Hall has incurred. Some generous friends are really wanted; but we have little or no doubt that the appeal of the committee for assistance will not be made in vain. We do not think it necessary to go through the programmes of last night's performance in detail, and will simply content ourselves by saying that all the performers gave the greatest satisfaction to the audience. Mr. Brower's singing of the "Slave Chant" and Signor Cattaneo's performance on the pianoforte were among the best executed items in the programme.

A very satisfactory practice with seven-pounder breech-loading guns was made by the detachment of Gun Guards stationed here at Stonecutters' Island this morning, in the presence of His Excellency Major-General Sargent; Colonel Walker, R.E.; Colonel Crawford, R.A.; Major Lloyd, R.E.; Brigade-Major Cochrane, and Lieutenant *Aide-de-Camp*. The men were under the command of Captain Brackenbury. The floating target was stationed 1400 yards distant, and the men fired with common shell; shrapnel; double common shell, reduced charge; and the Pallier shell. The shooting throughout was good, in some instances excellent. The following is the result of the firing:—

1. Common shell—40 yards over.

2. " " " 5 yards short.

3. Shrapnel—60 yards short.

4. " " " 40.

5. " " " Burst 10 feet above target.

6. Double common shell—Struck target.

7. " " " 40 yards over.

8. Pallier—40 yards over.

9. " " " 40.

The steamer *Encore*, Captain Putora, master, which arrived here from Australian ports yesterday, encountered a very severe "Nor' Easter" two days after leaving Sydney. At nine o'clock on the morning of the 20th ultime, the barometer commenced to give indications of a coming storm. Every preparation in the shape of securing all the movable on board, the ship was made to meet the approaching gale. The barometer continued to fall during the forenoon, and at one o'clock, the wind had increased to a strong gale. By two o'clock, the sea had risen considerably, and for the next 30 hours the *Encore* was severely handled by the elements. Part of the live stock, consisting of sheep and pigs, were washed overboard; the forward gangway was wrenched off; the forward booby hatch was stove in; one of the air ventilators was torn away, thus allowing a large quantity of water to get into the aft hold; the fore try-sail was split, while the ship's rail was considerably damaged fore and aft, and everything not securely fastened was swept off the deck. The lowest reading of the barometer was 28.30. Some idea of the force of the gale may be formed from the fact that the *Encore* was unable, steaming hard, to make more than three knots against the wind.

In regard to Sandakan, British North Borneo, we learn that Mr. W. B. Fryer, the Consular Agent for England and the Government Resident of the East Coast, returned to his official duties last month, taking a bride with him. Several land speculators, and a photographer, also pro-

ceeded from Hongkong to Sandakan in the monthly steamer. The complete plan for the small sugar mill for raw sugar was forwarded on the same occasion. It was shipped by Messrs. De Lissa and Sache to the order of the Government.

The China Sabi Company intend to cultivate tobacco largely this season on one of their estates in Sandakan. An experienced Sumatra manager and staff have been engaged. Mr. Harton of Foochow, having a large plantation interest in Sandakan, is now in route for that port on a tour of inspection.

His Excellency the Governor, the Hon. W. H. Treacher, has consented to stay at the disposal of Mr. Cheung, the agent of the China Merchants' S. S. Navigation Company here, who has been deputed by Li Hung-chang to select at least twelve lads who are to be trained for commanders of men-of-war at Tientsin. They will be trained in navigation and seamanship at the naval academy there, and during their course will receive 10 taels and food, and will be eligible for posts rising to the value of two hundred taels. LONDON AGENCY,
MESSRS. HUTCHISON & CO.,
4, Guildhall Chambers, 33, Basinghall St.,
E.C.

PASSAGES.—Better berths can be obtained through us by all lines than by passengers applying by letter or engaging themselves. Reduced is the demand when possible. "No charge is made, every possible care is taken to secure the best berths, and cabin berths, list of passengers, &c. furnished. Upon application the fullest information as to outgoing steamers furnished.

BAGGAGE.—We wish to lay before clients the advantages of despatching through our firm. We can collect baggage from any part of the United Kingdom at a through rate to the steamer. Passengers can send their heavy baggage in advance and without further trouble receive it upon arrival from our Agents in Hongkong. The fullest particulars and directions given when baggage is going with owner, labels furnished and the heavier baggage collected and placed on board a few days before the Steamer starts.

INSURANCES effected at very low rates.

ARMED IN ENGLAND.—When ad-

vised by his better half our repre-

sentative will meet passengers, and at once clear

baggage, thereby saving the heavy expenses

incurred even for a few days. Clear

lists of contents of packages and partic-

ulars of dutiable articles should be prepared.

PARCELS, PACKAGES AND GOODS

recovered by us and forwarded by next out-

going vessel by route most advantageous

to clients. Instructions effected upon the

smallest article. All information given to

friends at home as to mode of packing

necessary, proper address &c. See Pay-

ments.

GOODS purchased at lowest rates in the London markets. Orders executed for any article, however small, but to effect saving in freight it is advisable to clamp orders as much as possible. Any article received for repair and returned at earliest. See Pay-

ments.

PAYMENTS must be made here in Eng-

land, either privately through a business

agent, or by a credit arranged in Hong-

kong. Full directions for use, in 16 Lan-

guage, accompany each case.
